

Course: Web Technologies

Assignment 01: Your Personal CV Page

Task: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

- A header with your name, a short professional tagline, and a photo (a placeholder image is fine).
- An “About Me” section.
- An “Education” section listing your academic history in a semantic list or table.
- A “Skills” section.
- A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.
- Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.
- Styling entirely in a separate `styles.css` file (external stylesheet, not `inline style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

My CV

LinkedIn: [linkedin.com/in/ruhma-zahid](https://www.linkedin.com/in/ruhma-zahid)

Phone: 0300 1234567

email: FA24-BCS-097@cuilahore.edu.pk

Personal Information

Name: Ruhma Zahid

About me

I am 5th sem CS student with foundation in java, python and data structures and algorithms. Currently studying web development which is also my field of interest. I love learning html and css and eager to thrive more in this field.

Education

Qualification: Bachelor of Science in Computer Science from COMSATS University (2024-2028)

College: Fsc pre medical from pgc

Matriculation: BISE Lahore

Skills

Technical Skills

- HTML
- CSS
- Java

Soft Skills

- Communication
- Teamwork
- Problem-solving
- Time management

Contact

email: FA24-BCS-097@cuilahore.edu.pk

Projects

1. Library Management System using C++
2. ACMS-Automated Car Maintenance System using Java OOP concepts
3. Aerosphere- An Airport management system using Data Structures in Java
4. Kitcheware business export database management using SQL
